

The course of training the facilitators for conflict troubleshooting and the manners of solving it

Tammuz organizations for social development-Erbil office has finalized in the past few days the training course for troubleshoot the conflict and the means of dealing with it. The course was dedicated for the cadres and activists of some civil society organizations in Erbil.

The course was implemented in cooperation with the international center for education on human rights (EQUITAS). The courses continued for 3 days were the trainees exerted some rehearsals on the types of conflicts, the reasons of conflict rising, the conflict definitions, as well as the SWOT analysis of the conflict. The course also dealt with best ways of communication and their role in the field of human rights and bridging the gap according to the scientific means.

The course included mini-workshops on how to implement the theoretical fact into the practical aspect.

It is worth mentioning that the course was characterized by the seriousness and fruitful participation. That course was interactive.

The course is one of four courses implemented in Erbil, Nineveh and Kirkuk.

Tammuz organization for social development is humanitarian, developmental, social and independent organization established in 1997. One of the main goals is identifying the main principles
